Tri*Drill Services Receives NS Certification

Knight Oil Tools' Tri*Drill™ Services business unit has achieved NS-1™ certification as a hardbanding application facility from Fearnley Proctor Group. Tri*Drill Services also received NS-1 approval of Tritanium hardbanding product and NS-2™ approval for its Broussard, La. drill pipe inspection facility.

"Knight Oil Tools and Tri*Drill Services have taken an important step in achieving international recognition under the NS-1 and NS-2 certification that provides them with the honor of being the first such approved facility in the U.S.," said Simon Ward, Fearnley Proctor Vice President & Regional Manager for North and South America.

The NS-1™ and NS-2™ approval programs provide oilfield equipment and services companies with an industry-recognized approval program that supplements the requirements of American Petroleum Institute (A.P.I.) standards and demonstrates superior quality management and performance to offshore and onshore operators. The Fearnley Proctor Group provides worldwide drill string and drilling equipment engineering, quality assurance, training and approval services, operating in more than 20 countries from established offices in 12 countries around the world.

According to Mark Knight, "These approvals are not easy to obtain and require dedicated employees, a strong commitment to quality and proven performance. It is with great pleasure that we accept the NS-1 and NS-2 certification on behalf of our Tri*Drill Services business unit and employees."

Focused on providing "zero-failure" equipment and service for 40 years, Knight Oil Tools has grown to be the largest privately held rental and fishing tools business in the oil and gas industry. Knight Oil Tools maintains an extensive inventory of high-quality products for safe, efficient and productive oilfield projects.

Operating from more than 30 locations across eight oil-producing states, Knight Oil Tools serves all phases of a well's lifecycle from exploration to abandonment.
