

KNIGHT NEWS

Knight Oil Tools Newsletter – June 2011

Returning to Our Roots

This year, Knight Oil Tools celebrates 40 years of business. We are proud of our history and look forward to the future and our company’s place in the global oil and gas industry.

As we expand into new markets in the U.S. and internationally, it is important that we present a clear and consistent image in the marketplace.

To accomplish this, we are going back to our roots and adopting the Knight Oil Tools name and logo as our corporate identity. Knight Oil Tools clearly defines our business and the products and services we offer to our customers and prospects.

Each Business Unit will maintain its identity (see Spotlight) under the Knight Oil Tools banner but to the marketplace, we will all be Knight Oil Tools. The new Graphic Standards Manual will be released in July and employees will be able to order new business cards and stationery that reflect this new corporate identity.

“We can all be proud of our past and confident in the future of Knight Oil Tools. There are a lot of companies named Knight but there is only one Knight Oil Tools,” said President Mark Knight.

Focused on providing “zero-failure” equipment and service for 40 years, Knight Oil Tools has grown to include Fishing Services, Well Services and Manufacturing. The company is the largest privately held rental and fishing tools business in the oil and gas industry. Knight Oil Tools maintains an extensive inventory of high-quality products for safe, efficient and productive oilfield projects.

Operating from more than 30 locations across eight oil-producing states, Knight Oil Tools serves all phases of a well’s lifecycle from exploration to abandonment. For more information, visit www.knightoiltools.com.
