## LALIBERTE ACQUIRES LEVEL III CERTIFICATIONS

**Lafayette, La. (Jan. 30)** – Coty Laliberte, an engineer for Tri Drill Services, a Knight Company, recently obtained an ASNT NDT Level III in the following methods: Magnetic Testing (MT) & Penetrant Testing (PT).

Laliberte began his career with Tri Drill at age 16 as a certified Level II inspector in MT, PT and Ultrasonic Testing (UT). While obtaining his degree in Industrial Engineering at the University of Louisiana at Lafayette (ULL), he became an Electromagnetic Inspector and a Full Length Ultrasonic Operator. He graduated from ULL in May 2007.

Laliberte is currently working towards UT Level III and other method certifications.

“This level of certification is quite an accomplishment not only for Coty but for Tri Drill as a company,” said Sid Lyons, Tri Drill vice president. “Having an ASNT NDT Level III on board will enhance the ability to certify employees and offer customers more technical support with a wider range of inspection knowledge in the industry.”

Tri Drill Services performs NDT inspections on drill pipe, tubing, bottom hole assembly tools, heavy-lift components and handling equipment throughout the Greater Gulf Coast. Certified based on ASNT guidelines, Tri Drill’s inspectors are tested by an independent source, IPIA or a Certified ASNT NDT Level III Instructor.
