**LAFAYETTE, La. (July 21)** – Knight Fishing Services™ celebrates a decade of providing top-quality fishing tools and services to the oil and gas industry.

Knight Fishing Services, a Knight company, was created in 1999 to enhance the company's ability to serve clients in the critical area of downhole fishing.

Today, the company provides a full line of cased hole, open hole and thru tubing tools; casing cutters; power swivels; triplex pumps; reverse packages; foam units; and the Knight Excalibur single-trip whipstock, in addition to offering packer and section milling services.

Each member of Knight Fishing's leadership team has more than 25 years of oilfield experience, giving them a clear understanding of the needs and concerns in the industry.

"Our continued growth is the result of exceptional employees, products and service," said Clark Carnes, vice president of Knight Fishing Services. "Our progressive approach means positive results for our clients. We look forward to many decades of providing efficient, effective and dependable products and services."

Knight Fishing Services now serves its clients from its upgraded and expanded facility near Knight's corporate headquarters in Broussard, La.

Focused on providing “zero failure” equipment and service for more than 36 years, Knight Oil Tools has grown to include Knight Fishing Services, Well Services and Manufacturing. The company is the largest privately held rental and fishing tools business in the oil and gas industry. Knight has an extensive inventory of high-quality products necessary for safe, efficient and productive oilfield projects.

Knight’s 30 locations across eight oil-producing states serve all phases of an oil well’s lifecycle from exploration to abandonment. For more information, visit [www.knightoiltools.com](http://www.knightoiltools.com).
